

## Test Plan for Liferay Forms:

### 1 Scope:

Considering the effort of 1 working day and only 1 software tester, this test plan is limited to the following scope:

| Within scope                                      |
|---|
| Check navigability and menu on the Liferay Forms. |
| Check the Liferay Forms submission.               |
| Check the Liferay Forms fields.                   |
| Check the Liferay Forms supported languages.      |

| Out of scope   |
|--|
| Check the Liferay Forms database entries after submission.         |
| Check duplicated data in database on the Liferay Forms submission. |
| Check the general layout, colors and usability of the application. |
| Check application performance (speed) and robustness.              |

### 2 Tests strategy:

Considering the coverage guarantee, deadline to delivery and possible contingencies follow the testing strategies below:

|                           |   |
|---------------------------|---|
| <b>Purpose of Testing</b> | <p>Evaluate the Liferay Forms application, which is already available on the Internet at <a href="https://forms.liferay.com/web/forms/shared/-/form/122548">https://forms.liferay.com/web/forms/shared/-/form/122548</a>.</p> <p>The objectives are to verify that the application:</p> <ul style="list-style-type: none"> <li>Work as designed</li> <li>Is intuitive and anyone can use it without difficulty</li> <li>Performs and functions accurately</li> <li>Correctly handles error conditions</li> <li>Interfaces function correctly</li> </ul> |
| <b>Scope of Testing</b>   | <p>The test scope defined in <a href="#">section 1</a> will be tested using only 1 test environment with the following configuration:</p> <ul style="list-style-type: none"> <li>Operating system: Linux (Ubuntu 18.04.5 LTS)</li> <li>Browser: Google Chrome 90.0.4430.212 (Official Build) (64-bit)</li> </ul>  |
| <b>Test Type</b>          | <p>Functional testing will occur in an iterative and controlled manner, ensuring the solution matches the defined business and operational concerns.</p>  |

|   |  |
|---|--|
| <b>Development Tools and Test Tools (Automated testing)</b> | For the defined scope and the deadline for project delivery, only two automated tests will be used to cover part of the tests scope defined in <a href="#">section 1</a> . |
| <b>Business and Operational concerns</b>                    | The Liferay Forms is an application that keeps a record of all Liferay QA candidates name, date birth and why the candidate joined the testing area.                       |
| <b>Risks and mitigation</b>                                 | The risks, consequences and actions to mitigate it are detailed in <a href="#">section 3</a> .   |

### 3 Risks and mitigation:

See below the risks for testing the Liferay Forms application, its consequences and actions to mitigate it.

| <b>Risk</b>  | <b>Risk consequences</b>  | <b>Actions to mitigate risk</b>   |
|--|---|---|
| Lack of requirements documentation.                  | Do not cover 100% of the functionality based on the requirements.     | Create a requirements document to ensure the application works as desired.            |
| Specification is not available at the adequate time. | Inability to plan the completed testing process in the adequate time. | Anticipate the definition of the specifications and start the test plan more quickly. |
| Do not check the correct data in database.           | Data may not been stored in database or may be incorrect.             | Allow access to database and check the data submission.                               |

### 4 Test Scenarios:

Find below some test scenarios related to the scope defined in [section 1](#).

| <b>TS ID</b> | <b>Test scenario description</b>  |
|--------------|---|
| TS-001       | Check the supported languages.  |
| TS-002       | Check the required fields.  |
| TS-003       | Check the date birth menu field.  |
| TS-004       | Check the text fields with big text content (more than 300 characters). |
| TS-005       | Check the successful form submission.                                   |
| TS-006       | Check the form submission with incorrect data.                          |

## 5 Test Cases:

See below the test cases for the test scenarios defined in [section 4](#).

|                                |   |                                |  |
|--------------------------------|---|--------------------------------|--|
| <b>TC-001</b>                  | Verify default supported language.              |                                |  |
| <b>Created by</b>              | Fernando Benbassat                              | <b>Updated</b>                 | Jun-06-2021                                  |
| <b>Test Type</b>               | Sanity  | <b>Component/Test Scenario</b> | <a href="#">TS-001</a>                       |
| <b>Test Procedure</b>          |   |                                |  |
| <b>Initial Setup</b>           | <b>Steps</b>                                    |                                | <b>Expected Results</b>                      |
| Open Liferay Forms in browser. | Verify default supported language in icon flag. |                                | US (english) flag is set up by default.      |
|                                | Verify the site content.                        |                                | All site content (texts) is in english (US). |
|                                | Click on calendar icon in date birth field.     |                                | Calendar menu texts are in english (US).     |

|                                |   |                                |   |
|--------------------------------|---|--------------------------------|---|
| <b>TC-002</b>                  | Verify portuguese (BR) supported language.        |                                |   |
| <b>Created by</b>              | Fernando Benbassat                                | <b>Updated</b>                 | Jun-06-2021                                     |
| <b>Test Type</b>               | Sanity  | <b>Component/Test Scenario</b> | <a href="#">TS-001</a>                          |
| <b>Test Procedure</b>          |   |                                |   |
| <b>Initial Setup</b>           | <b>Steps</b>                                      |                                | <b>Expected Results</b>                         |
| Open Liferay Forms in browser. | Click on US flag and choose portuguese (BR) flag. |                                | Icon flag changed to portuguese (BR) flag.      |
|                                | Verify the site content.                          |                                | All site content (texts) is in portuguese (BR). |
|                                | Click on calendar icon in date birth field.       |                                | Calendar menu texts are in portuguese (US).     |

|                                |  |                                |   |
|--------------------------------|--|--------------------------------|---|
| <b>TC-003</b>                  | Verify english (US) supported language             |                                |   |
